Dear Parent/Guardian:

After examining teacher recommendations, classroom performance and the standardized testing, your child has been identified as a student with weaknesses in certain basic skills. Your child has been identified as needing basic skills in:

Math

Reading and Writing

While our teachers address your child's needs, research has proven that a "team effort" with parents and teachers working together produce the greatest and fastest results. We have arranged several meetings in early September to discuss how parents can help students be successful. These meetings are scheduled before, during and after school in order to provide you with the greatest opportunity to attend. By meeting before conferences, parent and BSI teachers have a chance to communicate about the best strategies to bring about a successful school year.

Please complete and return the form below to your child's homeroom teacher.

Sincerely yours,
Monica Higbie
BSI Coordinator
