

Dungeons & Dragons – Kayte Snyder and Michael Spina - club can be used as a way to further stimulate the intellectual growth of our students at Montague Township School. Students work together to create the game in their collective imaginations and actively affect every facet of the game with each roll of the dice as this is a game that encourages reading, creating and drafting narratives, critical thinking, mathematical strategies and principles, problem solving and teamwork, this would be an ideal opportunity for students to enjoy a game while actively engaging their intellects
